

YUGAVANAN

Madurai-625532, TamilNadu | +917094674159 | c.s.yugavanan8900@gmail.com
LinkedIn: yugavanan-s | GitHub: Yugavanan | Portfolio: yugavanan.github.io/yugavanan-portfolio/

SUMMARY

Innovative B.Tech IT graduate with hands-on experience in building scalable web applications, image-processing tools, and video-classification systems. Published projects, strong problem-solving skills, and experience in full-stack, cloud, and UI/UX design workflows. Seeking an entry-level role to contribute to impactful tech solutions.

INTERN EXPERIENCE

Gradtwinn | 1 Feb 26 - 30 Apr 26

Data Analytics

Performed data cleaning, preprocessing, and validation to ensure high-quality datasets. Conducted exploratory data analysis to identify trends, patterns, and business insights. Developed interactive Power BI dashboards and automated reports. Utilized Python, SQL, and Microsoft Excel to transform raw data into meaningful insights for data-driven decision-making.

Skills & Tools: Data Analysis, Cleaning, Preprocessing, (EDA), Power BI, Python, SQL, Microsoft Excel, Reporting.

Bluestock | 1 Feb 26 - 30 Apr 26

Software Development Engineer (SDE)

Worked on developing and improving core application features, ensuring clean and maintainable code structure. Debugged and fixed real-time issues, improving application stability and reducing errors. Used Git for version control, managing code updates and collaborating effectively in a remote setup. Optimized application logic and performance, resulting in smoother user experience.

Skills & Tools: Software Development, Debugging, API Integration, Code Optimization, SDLC, REST APIs, JavaScript, React.js, Node.js.

Innovexis | 15 Feb 26 - 15 Mar 26

Data Analytics

Performed data cleaning, preprocessing, and transformation to ensure data accuracy and consistency. Analyzed datasets to identify trends, patterns, and actionable business insights. Developed interactive dashboards and visualizations using Power BI/Tableau to support data-driven decision-making. Utilized Python, SQL, and Excel for data analysis, reporting, and automation of analytical workflows.

Skills & Tools: Data Analysis, Cleaning, Visualization, Reporting & Dashboarding, Analytical Thinking, Python, SQL, Power BI, Tableau.

EDUCATION

B.Tech IT, SriShakthi Institute of Engineering and Technology	2022-2026	CGPA : 6.68
HSC, Jayaseelan Matric Hr Sec School	2021-2022	Percentage : 70%
SSLC, Jayaseelan Matric Hr Sec School	2019-2020	Percentage : 60%

SKILLS

- Programming Languages:** Java, Python, C, SQL, JavaScript, HTML, CSS.
- Frameworks & Libraries:** React.js, Node.js, Express.js, TensorFlow, Keras, OpenCV, Three.js.
- Cloud & Tools:** AWS (S3, CloudFront, Route 53, IAM), MongoDB, Tableau, Power BI, Figma, Git.
- Soft Skills:** Critical Thinking, Problem-Solving, Adaptability, Team Collaboration.

PROJECTS

DEEP VISICO | 2022 – 2023,

Developed a tool to decode images using color coding Utilized python for image processing and color based decoding algorithms.

Resources : TensorFlow, Convolutional Neural Networks (CNN), AlexNet Architecture, ReLU, LRN, Dropout, ImageNet Dataset

VIRTUAL VORTEX | 2023-2024,

Development of a video classification system to automate content labeling by analyzing spatial and temporal features.

Resources : TensorFlow, Keras, OpenCV, CNN– LSTM Architecture, 3D-CNN, Frame Extraction, Softmax Classifier

DNA SEQUENCING | 2023-2024

Developed a tool to decode images using color coding utilized python for image processing and color based decoding algorithms.

Resources : RNN, LSTM, GRU, Transformer Models, Attention Mechanism, SVM, Random Forest, Sequence Alignment, TensorFlow.

ARTISIUM | 2024-2025

Developed a complete digital art gallery platform with high-resolution zoom, 3D virtual gallery, dynamic artwork management, ecommerce integration.

Resources : React.js, WebGL, Three.js, Blender, AWS S3, Cloudinary, Stripe, PayPal, Figma, Adobe XD, CDN, Lazy Loading, SSL Encryption.

STATIC WEBSITE HOSTING | 2024-2025

Developed a static website using AWS, integrated CloudFront for global caching, mapped custom domain through Route 53, and secured access using IAM.

Resources : AWS S3, AWS CloudFront, AWS Route 53, AWS IAM, HTML, CSS, JavaScript, CDN, Bucket Policies, Access Control.

DEALSPHERE | 2025-2026

Developed a complete coupon trading marketplace with secure authentication, seller–buyer workflow, admin verification, automated fee calculation, and dashboards.

Resources : MERN Stack (MongoDB, Express.js, React.js, Node.js), JWT Auth, Axios, RESTful APIs, Mongoose, RBAC, Cloud Deployment.

CERTIFICATES

Business Analysis & Process Management	Issued by Coursera	February 2024
Get Started with Figma	Issued by Coursera	March 2024
Create a Lead Generation Messenger Chatbot using Chatfuel	Issued by Coursera	March 2024
Cascading Style Sheet	Issued by HackerRank	March 2025
Figma Design Basics and Features	Issued by Alison	June 2025
Digital Skills: User Experience	Issued by Accenture	June 2025
Data Analytics Job Simulation	Issued by Deloitte (via Forge)	July 2025
Data Visualisation: Empowering Business with Effective Insights Job Simulation	Issued by Tata (via Forge)	July 2026

DECLARATION

I hereby declare that the information furnished above are true to the best of my knowledge.
