SUMMARY

Innovative B.Tech IT graduate with hands-on experience in building scalable web applications, image-processing tools, and video-classification systems. Published projects, strong problem-solving skills, and experience in full-stack, cloud, and UI/UX design workflows. Seeking an entry-level role to contribute to impactful tech solutions.

INTERN EXPERIENCE

Bluestock | 1 Feb 26 - 30 Apr 26 Software Development Engineer (SDE)

Worked on developing and improving core application features, ensuring clean and maintainable code structure. Debugged and fixed real-time issues, improving application stability and reducing errors. Used Git for version control, managing code updates and collaborating effectively in a remote setup. Optimized application logic and performance, resulting in smoother user experience.

Skills&Tools : Software Development, Debugging, API Integration, Code Optimization, SDLC, REST APIs, JavaScript, React.js , Node.js

Innovexis | 15 Feb26-15Mar26 Data Analytics

Performed data cleaning, preprocessing, and transformation to ensure data accuracy and consistency. Analyzed datasets to identify trends, patterns, and actionable business insights. Developed interactive dashboards and visualizations using Power BI/Tableau to support data-driven decision-making. Utilized Python, SQL, and Excel for data analysis, reporting, and automation of analytical workflows.

Skills&Tools : Data Analysis, Cleaning, Visualization, Reporting & Dashboarding, Analytical Thinking, Python, SQL, Power BI, Tableau.

EDUCATION

B.Tech IT, SriShakthi Institute of Engineering and Technology	2022 – 2026	CGPA : 7.07
HSC, Jayaseelan Matric Hr Sec School	2021 – 2022	Percentage : 70%
SSLC, Jayaseelan Matric Hr Sec School	2019 – 2020	Percentage : 60%

SKILLS

- **Programming Languages:** Java, Python, C, SQL, JavaScript, HTML, CSS.
- **Frameworks & Libraries:** React.js, Node.js, Express.js, TensorFlow, Keras, OpenCV, Three.js.
- **Cloud & Tools:** AWS (S3, CloudFront, Route 53, IAM), MongoDB, Tableau, Power BI, Figma, Git.
- **SoftSkills:** Critical Thinking, Problem-Solving, Adaptability, Team Collaboration.

PROJECTS

- DEALSPHERE | Coupon Trading Marketplace (2025 - 2026)**
- **Overview:** Developed a complete coupon trading marketplace with secure authentication, seller-buyer workflow, and admin verification.
 - **Tech Stack:** MERN Stack (MongoDB, Express.js, React.js, Node.js) , JWT Auth , RESTful APIs , RBAC.

- ARTISIUM | Digital Art Gallery Platform (2024 - 2025)**
- **Overview:** Developed a complete digital art gallery platform with high-resolution zoom, a 3D virtual gallery, and dynamic artwork management.
 - **Tech Stack:** React.js , WebGL , Three.js , AWS S3 , Stripe , PayPal.

- STATIC WEBSITE HOSTING | Cloud Infrastructure (2024 - 2025)**
- **Overview:** Developed a static website using AWS , integrating CloudFront for global caching , and mapping a custom domain through Route 53.
 - **Tech Stack:** AWS S3 , AWS CloudFront , AWS Route 53 , AWS IAM , HTML/CSS/JavaScript.

- VIRTUAL VORTEX | Video Classification System (2023 - 2024)**
- **Overview:** Development of a video classification system to automate content labeling by analyzing spatial and temporal features.
 - **Tech Stack:** TensorFlow , Keras , OpenCV , CNN-LSTM Architecture , 3D-CNN.

- DNA SEQUENCING | Sequence Analysis Tool (2023 - 2024)**
- **Overview:** Developed a tool to decode images using color coding (Note: This project title's resources suggest sequence analysis).
 - **Tech Stack:** RNN , LSTM , GRU , Transformer Models , Sequence Alignment.

- DEEP VISICO | Image Decoding Tool (2022 - 2023)**
- **Overview:** Developed a tool to decode images using color coding. Utilized python for image processing and color-based decoding algorithms.
 - **Tech Stack:** Python , TensorFlow , Convolutional Neural Networks (CNN) , AlexNet Architecture.

CERTIFICATES

- Data Analytics Job Simulation | Issued by Deloitte (via Forge) | July 2025
- Digital Skills: User Experience | Issued by Accenture | June 2025
- Create a Lead Generation Messenger Chatbot using Chatfuel | Issued by Alison | June 2025
- Figma Design Basics and Features | Issued by Coursera | March 2024
- Get Started with Figma | Issued by Coursera | April 2024
- Business Analysis & Process Management | Issued by Coursera | February 2024
- Cascading Style Sheet | Issued by HackerRank | March 2025

PROJECTS

DEEP VISICO , Developed a tool to decode images using color coding Utilized python for image processing and color based decoding algorithms	Resources : TensorFlow, Convolutional Neural Networks (CNN), AlexNet Architecture, ReLU, LRN, Dropout, ImageNet Dataset	2022 – 2023
VIRTUAL VORTEX , Development of a video classification system to automate content labeling by analyzing spatial and temporal features	Resources : TensorFlow, Keras, OpenCV, CNN–LSTM Architecture, 3D-CNN, Frame Extraction, Softmax Classifier	2023 – 2024
DNA SEQUENCING , Developed a tool to decode images using color coding utilized python for image processing and color based decoding algorithms	Resources : RNN, LSTM, GRU, Transformer Models, Attention Mechanism, SVM, Random Forest, Sequence Alignment, TensorFlow..	2023 – 2024
ARTISIUM , Developed a complete digital art gallery platform with high-resolution zoom, 3D virtual gallery, dynamic artwork management, e-commerce integration.	Resources : React.js, WebGL, Three.js, Blender, AWS S3, Cloudinary, Stripe, PayPal, Figma, Adobe XD, CDN, Lazy Loading, SSL Encryption.	2024 – 2025
STATIC WEBSITE HOSTING , Developed a static website using AWS, integrated CloudFront for global caching, mapped custom domain through Route 53, and secured access using IAM.	Resources : AWS S3, AWS CloudFront, AWS Route 53, AWS IAM, HTML, CSS, JavaScript, CDN, Bucket Policies, Access Control.	2024 – 2025
DEALSPHERE , Developed a complete coupon trading marketplace with secure authentication, seller–buyer workflow, admin verification, automated fee calculation, and dashboards.	Resources : MERN Stack (MongoDB, Express.js, React.js, Node.js), JWT Auth, Axios, RESTful APIs, Mongoose, RBAC, Cloud Deployment.	2025 – 2026
